HOW TO IMPORT & FOLLOW .TCX/.GPX ROUTES

STEP 1.  
- Log in to www.lezyne.com/gpsroot

STEP 2.  
- Select "Routes" under the Device Features pull-down menu

STEP 3.  
- Click "Upload GPX/TCX Route"

STEP 4.  
- Click "Choose Files" and locate one or more .TCX or .GPX files to import -- then click Upload
STEP 5.
• Open the Lezyne Ally V2 app on a smartphone, be sure you are logged in and it is paired with a Year 10 Lezyne GPS device.

STEP 7.
• Find the route you want to follow and tap it.

STEP 6.
• Select the Navigation tab, tap the pull-down menu and tap "Saved Routes".

STEP 8.
• When ready to ride, tap "GO". The app will then send the turn-by-turn directions to your GPS unit.
