Mechanical Precision is what has defined Lezyne since we entered the market over 10 years ago. Each product we create is conceptualized, developed and produced by us. This gives us a level of precision and mechanical performance that is second-to-none and on display throughout our collection of cycling accessories. And heading into Year 11 we continue that trend—even for something as simple as a bell.
CNC DIGITAL DRIVE
220 psi // 15 bar
Colors: Black, Silver

ALLOY DIGITAL DRIVE
220 psi // 15 bar
Colors: Black, Silver

STEEL DIGITAL DRIVE
220 psi // 15 bar
Colors: Black, White

SPORT DIGITAL DRIVE
220 psi // 15 bar
Colors: Black, Silver

CNC FLOOR DRIVE
Beautiful, professional grade floor pump. Full CNC machined aluminum construction and hardware. Oversized 5.5-inch precision gauge. Extra long, nylon-reinforced braided hose with aluminum couplers. ABS1 Pro equipped.
220 psi // 15 bar
Colors: Black, Silver

CLASSIC FLOOR DRIVE
Durable machined aluminum base with a steel barrel and piston. Oversized 3.5-inch precision gauge. Extra long, high-strength hose with aluminum couplers. Premium paint finish with varnished wood handle. ABS1 Pro equipped.
220 psi // 15 bar
Colors: Black, White

YEAR ELEVEN
Our ceaseless dedication to developing and manufacturing the highest quality floor pumps is second to none. We engineer the most efficient and reliable floor pumps possible and refuse to cut any corners that could sacrifice quality. Our pumps use the best materials available and each one is then 100% QC tested before leaving our factory floor. For Year 11 we’ve introduced our redesigned and highly innovative ABS1 Pro chuck – available throughout our floor pump collection.
STANDARD MACRO FLOOR DRIVE
220 psi // 15.1 bar
Colors: Gloss Black, Matte Black, Red, White
Available in Tall (134 cm / 4.4 ft. fully extended), Black Only.

STEEL FLOOR DRIVE
Durable machined aluminum base with steel barrel and piston. Large 2.5 inch gauge. Extra-long high-strength hose with composite matrix couplers. Painted finish with varnished wood handle. ABS1 Pro equipped.
220 psi // 15.1 bar
Colors: Black, Silver, Red, Gold
Available in Tall (134 cm / 4.4 ft. fully extended), Black Only.

DIGITAL MACRO FLOOR DRIVE
220 psi // 15.1 bar
Colors: Gloss Black, Matte Black, Red, White

ALLOY FLOOR DRIVE
220 psi // 15 bar
Colors: Black, Silver
Available in Tall (134 cm / 4.4 ft. fully extended), Silver Only.

SPORT FLOOR DRIVE
Steel barrel and piston with tough composite matrix base. Large 2.5 inch gauge. 220 psi max. Extra-long, high-strength hose with composite matrix couplers. Durable, painted finish with varnished wood handle. ABS1 Pro or Dual Valve equipped options.

SHOCK DIGITAL DRIVE
Presta valve compatible.
350 psi // 24 bar
Color: Silver
DIGITAL PRESSURE OVER DRIVE

Innovative floor pump with an integrated system designed to seat tubeless tires.

A secondary chamber can be manually pressurized and the stainless steel foot lever releases the compressed air. This discharges a strong, continuous blast of air that quickly seats tubeless systems. Equipped with super accurate, custom digital gauge. Durable steel and aluminum construction with stylish wood handle. Extra long, nylon-reinforced braided hose. Presta and Schrader compatible ABS1 Pro chuck.

270 psi // 18 bar     Color: Black
Can be used as a regular floor pump (Max 270 psi // 18 bar).

438 x 190 x 60 mm // 840g

160 psi // 11 bar     Color: Silver
Chuck equipped with Speed Chuck adapter.

DIGITAL OVER DRIVE

220 psi // 15 bar     Color: Black
Can be used as a regular floor pump (Max 220 psi // 15 bar).

438 x 190 x 60 mm // 1053g

160 psi // 11 bar     Color: Black
Chuck equipped with Speed Chuck adapter.

ALLOY OVER DRIVE

Oversized aluminum barrel and steel piston with aluminum base. High volume, maximum flow design. Efficiently inflates large diameter tires and is powerful enough to seat tubeless systems. Large 2.5 inch gauge optimized for low-pressure setups. Extra long, high-strength oversized hose. High volume ABS1 Pro equipped.

220 psi // 15 bar     Color: Black
Can be used as a regular floor pump (Max 220 psi // 15 bar).

438 x 190 x 60 mm // 840g

160 psi // 11 bar     Color: Silver
Chuck equipped with Speed Chuck adapter.

CLASSIC OVER DRIVE

Oversized machined steel barrel and piston with aluminum base. High volume, maximum flow design. Efficiently inflates large diameter tires and is powerful enough to seat tubeless systems. Large 2.5 inch gauge optimized for low-pressure setups. Extra long, high-strength oversized hose. High volume ABS1 Pro equipped.

180 psi // 12 bar     Color: Black

STEEL TRAVEL FLOOR DRIVE

Compact, lay-flat design maximizes efficiency and portability. Durable and lightweight CNC machined aluminum construction. Full-length canvas bag protects pump during transport. Durable, anodized high-polish finish with a compact 1.5 inch gauge. ABS Flip-Thread Chuck equipped with Speed Chuck adapter.

180 psi // 12 bar     Color: Silver
508 x 190 x 60 mm // 1460g

SLIP CHUCK

Slip-fit Presta-only adapter for ABS Flip-Thread Chuck. Full CNC machined aluminum construction. 50-degree bend designed for use with disc wheels. Two-piece, tool-free seal replacement design. Includes six replacement seals.

7g // Replaces ABS Flip-Thread Chuck

SPEED CHUCK

Slip-fit Presta-only adapter for ABS Flip-Thread Chuck. Machined composite matrix construction. 50-degree bend designed for use with disc wheels. Two-piece, tool-free seal replacement design.

7g // Threads onto ABS Flip-Thread Chuck

VALVE EXTENDERS

70 mm Presta valve extenders for deep Aero wheels. CNC machined aluminum construction. Threaded outer tip with 2 mm hex hole for tightening/removing. Integrated 90-degree bend for use with valve cores. Compatibility with all Flip-Thread Chuck, Flo Hose Pumps and ABS1 Pro chuck.

7g // Sold as a pair

DUAL VALVE HEAD

4g // 90-degree bend designed for use with Presta valve cores. Available on select models or sold separately.
HAND PUMPS - HIGH PRESSURE

**HAND PUMPS - HIGH PRESSURE**

**MICRO FLOOR DIGITAL DRIVE HP**

- **Dimensions**: 170 mm, 122g
- **Pressure**: 120 psi (8.3 bar)
- **Color**: Black

**MICRO FLOOR DRIVE HP/HPG**
Floor pump efficiency in a super compact, hand pump size. Lightweight CNC machined aluminum barrel, piston, base, and T-handle optimized for high pressure applications. Stainless steel foot peg stabilises pump during use. HPG version features integrated pressure gauge (shown), also available in HP version without gauge (not shown). ABS Flip-Thread Chuck equipped. Includes composite matrix frame mount.

- **HP**: 300 mm, 150g
  - **Pressure**: 160 psi (11 bar)
  - **Color**: Silver, Black
- **HPG**: 300 mm, 194g
  - **Pressure**: 160 psi (11 bar)
  - **Color**: Silver, Black

**DIGITAL ROAD DRIVE**
The most advanced and efficient high pressure hand pump. Integrated low-profile, highly accurate Digital Strip Gauge. Light and compact CNC-machined aluminum construction. Presta compatible ABS Flex Hose.

- **Dimensions**: 180 mm, 117g
- **Pressure**: 160 psi (11 bar)
- **Color**: Black

**DIGITAL PRESSURE DRIVE**

- **Dimensions**: 178 mm, 122g
- **Pressure**: 120 psi (8.3 bar)
- **Color**: Black

YEAR ELEVEN

Precision and quality define our collection of premium hand pumps. Developed in-house to be as compact, lightweight, and efficient as possible, our innovative designs have redefined the hand pump category. Featuring premium materials and elegant aesthetics, our hand pumps are in a class of their own. For Year 11 we’ve integrated our highly accurate digital gauge into a few more models making them the most advanced pumps available.
CARBON ROAD DRIVE
The ultimate lightweight, high performance hand pump. Full Carbon Tech (FCT) barrel and handle. Compact, efficient overlapping design. CNC machined aluminum piston and hardware. Equipped with the ABS Speed Flex hose; Presta and Schrader valve compatible. Includes a FCT carbon fiber frame pump mount.

S: 180 mm, 73g // 160 psi // 11 bar   M: 216 mm, 87g // 160 psi // 11 bar   Color: Black

CARBON DRIVE LITE
Compact, lightweight hand pump optimized for high pressure setups. MCT composite barrel and handle in an efficient overlapping design. CNC machined aluminum piston and hardware. Equipped with the ABS Flex hose; Presta and Schrader valve compatible. Includes a composite matrix frame pump mount.

S: 170 mm, 80g // 120 psi // 8.3 bar   Color: Black

GAUGE DRIVE HP
Compact, lightweight hand pump with efficient overlapping handle. CNC machined aluminum barrel, handle, and piston optimized for high pressure applications. Equipped with the ABS Pen Gauge Flex hose; an integrated pressure gauge compatible with Presta and Schrader valves. Includes a lightweight composite matrix frame pump mount.

M: 232 mm, 119g // 120 psi // 8.3 bar     Colors: Black, Silver

ROAD DRIVE
Lightweight, CNC machined aluminum construction. Efficient and compact overlapping handle optimized for high pressure applications. Equipped with the ABS Speed Flex hose (Presta valve only). Includes a CNC machined aluminum frame pump mount.

S: 180 mm, 82g // 160 psi // 11 bar   M: 216 mm, 96g // 160 psi // 11 bar   L: 283 mm, 110g // 160 psi // 11 bar     Colors: Black, Silver

LITE DRIVE
Highly efficient hand pump with a compact, overlapping handle optimized for high pressure applications. Sleek and lightweight, CNC machined aluminum construction. Equipped with the ABS Flex hose; Presta and Schrader valve compatible. Includes a composite matrix frame pump mount.

S: 180 mm, 80g // 160 psi // 11 bar   M: 216 mm, 92g // 160 psi // 11 bar   Colors: Black, Silver, Purple, Red, Blue     (Blue color not available in U.S.A.)

TECH DRIVE HP
Lightweight, CNC machined aluminum barrel, piston and handle. Efficient and compact overlapping handle optimized for high pressure setups. Equipped with our ABS Flex hose; Presta and Schrader valve compatible. Includes lightweight composite matrix frame pump mount.

S: 170 mm, 80g // 110 psi // 7.8 bar   M: 216 mm, 92g // 110 psi // 7.8 bar   Color: Black, Silver
HAND PUMPS - HIGH PRESSURE & SHOCK PUMPS

**NEW HP DRIVE**
Compact, lightweight hand pump with efficient overlapping composite matrix handle. CNC-machined aluminum barrel and piston optimized for high pressure applications. Equipped with the ABS Flip hose; Presta and Shrader valve compatible. Includes lightweight composite matrix frame mount.

**S:** 170 mm, 89g // 120 psi // 8.3 bar
**M:** 216 mm, 102g // 120 psi // 8.3 bar
Colors: Black, Silver, Purple, Red, Blue
(Blue color not available in U.S.A.)

**SPORT DRIVE HP**
Compact pump with overlapping handle designed for high pressure systems. Machined aluminum barrel and piston, composite matrix handle and end caps. Flex Hose equipped; Presta and Schrader valve compatible. Includes lightweight composite matrix frame mount.

**S:** 170 mm, 75g // 120 psi // 8.3 bar
Colors: Black, Grey

**MICRO FLOOR DIGITAL DRIVE XL**
The ultimate high-volume portable pump with an integrated, highly advanced digital gauge. Lightweight CNC machined aluminum barrel, piston, base, and T-handle optimized for plus-size tire systems. Stainless steel foot peg stabilizes pump during use. ABS Flip-Thread Chuck equipped; Presta and Schrader compatible. Includes composite matrix frame mount.

**302 mm, 358g // 35 psi // 2.4 bar**
Colors: Black

**MICRO FLOOR DRIVE XL/HVG**
Floor pump efficiency in a super compact, hand pump size. Lightweight CNC machined aluminum barrel, piston, base, and T-handle optimized for high volume applications. Long, versatile hose improves pumping convenience. Stainless steel foot peg stabilizes pump during use. HV version features integrated pressure gauge (shown), also available in HV version without gauge (not shown). ABS Flip-Thread Chuck equipped; Presta and Schrader compatible. Includes composite matrix frame mount.

**HV:** 300 mm, 150g // 90 psi // 6.2 bar
**HVG:** 300 mm, 195g // 90 psi // 6.2 bar
Colors: Silver, Black

**DIGITAL SHOCK DRIVE**
Incredibly compact and lightweight aluminium construction. Ultra low profile Digital Strip Gauge built into the side, design keeps pump extremely compact, yet highly accurate. Provdes up to 350 psi (24 bar). Cleverly integrated hose that threads into the handle when not in use. Zero-loss shock design unthreads from the shock after valve pin seals. The ultimate shock pump for trailside tuning.

**225 mm, 118g // 350 psi // 24 bar**
Color: Black

**SHOCK DRIVE**

**360 mm, 168g // 400 psi // 27.5 bar**
Color: Black

**DIGITAL SHOCK DRIVE**
Incredibly compact and lightweight aluminium construction. Ultra low profile Digital Strip Gauge built into the side, design keeps pump extremely compact, yet highly accurate. Provdes up to 350 psi (24 bar). Cleverly integrated hose that threads into the handle when not in use. Zero-loss shock design unthreads from the shock after valve pin seals. The ultimate shock pump for trailside tuning.

**225 mm, 118g // 350 psi // 24 bar**
Color: Black

**SHOCK DRIVE**

HAND PUMPS - HIGH VOLUME

DIGITAL ALLOY DRIVE
The most advanced high volume hand pump. Integrated low-profile, highly accurate Digital Strip Gauge. Light and compact CNC machined aluminum construction. Presta and Schrader compatible ABS Flex Hose.
M: 216 mm, 110g // 90 psi // 6.2 bar    Colors: Black

GAUGE DRIVE HV
Compact, lightweight hand pump with efficient overlapping handle. CNC machined aluminum barrel, handle, and piston optimized for high volume applications. Equipped with the ABS Flex Hose, an integrated pressure gauge compatible with Presta and Schrader valves. Includes lightweight composite matrix frame mount.
M: 230 mm, 140g // 90 psi // 6.2 bar    Colors: Black, Silver

TECH DRIVE HV
Lightweight, CNC machined aluminum barrel, piston, and handle. Efficient and compact overlapping handle optimized for high volume applications. Equipped with the ABS Flex Hose, Presta and Schrader valve compatible. Includes lightweight composite matrix frame mount.
S: 170 mm, 111g // 90 psi // 6.2 bar    M: 216 mm, 127g // 90 psi // 6.2 bar    Colors: Black, Silver

SPORT DRIVE HV
Compact pump with overlapping handle, designed for high volume tires. Machined aluminum barrel and piston, composite matrix handle and end caps. Equipped with ABS Flex Hose, Presta and Schrader valve compatible. Includes lightweight composite matrix frame mount.
S: 150mm, 130g // 90 psi // 6.2 bar    Colors: Black, Silver

DIGITAL CHECK DRIVE
150mm, 60g // 350 psi // 24 bar    Color: Black

ALLOY DRIVE
Lightweight, CNC machined aluminum construction. Efficient and compact overlapping handle optimized for high volume applications. Equipped with the ABS Flex Hose, Presta and Schrader valve compatible. Includes a composite matrix frame mount.
S: 170 mm, 110g // 90 psi // 6.2 bar    M: 216 mm, 127g // 90 psi // 6.2 bar    Colors: Black, Gold, Purple, Red, Blue    (Blue color not available in U.S.A.)

HV DRIVE
Compact, lightweight hand pump with efficient overlapping composite matrix handle. CNC machined aluminum barrel and piston optimized for high volume applications. Equipped with the ABS Flex Hose, Presta and Schrader valve compatible. Includes lightweight composite matrix frame mount.
S: 170 mm, 110g // 90 psi // 6.2 bar    M: 216 mm, 127g // 90 psi // 6.2 bar    Colors: Black, Silver, Purple, Red, Blue    (Blue color not available in U.S.A.)

HAND PUMPS - ACCESSORIES

ABS PEN GAUGE
Replacement ABS Flex Hose with integrated pressure gauge. Stows in the handle of ABS Flex Hose equipped alloy hand pumps (medium and large sizes only). Built with our ABS Flip-Thread Chuck, compatible with Presta and Schrader valves.

CO2 INFLATORS

**ALLOY DRIVE CO2**

Durable CO2 dispenser constructed out of CNC-machined aluminum. Trigger Valve Operation for easy and controlled inflation. Twin Chuck head threads on to Presta and Schrader valves. Integrated carbonator stores one 16g CO2 cartridge. Cartridge insulated hands from cold during discharge. Includes one 16g cartridge. Compatible with threaded CO2 only.

4g (without CO2 cartridge) | Color: Black, Silver

**PRESSURE DRIVE CFH**

Versatile design combines the efficiency of a hand pump with the convenience of CO2. Innovative 2-in-1 inflation system works as a high pressure hand pump or CO2 inflator. Integrated steel-braided CO2 Flex Hose (CFH) doubles as a CO2 dispenser. Pump features a CNC-machined aluminum body, piston and handle. Flip-Thread Chuck works on both Presta and Schrader valves. Kit includes: Pump with integrated CFH hose, one 16g cartridge and CFH mounting hardware. Adaptable configuration conveniently mounts to frame or slides into jersey pocket. Compatible with threaded CO2 only.

M: 190 mm, 108g (Pump and CFH only) | 120 psi // 8.3 bar | Color: Black

**TRIGGER SPEED DRIVE CO2**

CNC-machined aluminum dispenser with brass internals. Trigger Valve Operation allows for easy and controlled inflation. Slip Fit head process onto Presta valves only. Neoprene sleeve insulated hand from cold during discharge. Compatible with threaded CO2 cartridges. Includes one 16g cartridge.

26g (without CO2 cartridge) | Color: Black, Silver

**YEAR ELEVEN**

True to our slogan “Engineered Design,” our lineup of CO2 systems are as sexy as they are functional. Constructed from the highest quality materials like aluminum, brass, and hardened steel, each model is built to last and work flawlessly. From simple slip-fit designs to highly advanced, controlled release systems, we offer superior CO2 systems for any cyclist looking for instant tire inflation solutions.

CEDRIC GRATIA
CO2 INFLATORS

NEW
TRIGGER DRIVE CO2
CNC machined aluminum dispenser with brass internals. Trigger Valve Operation for easy and controlled inflation. Twin Check head threads on to Presta and Schrader valves. Neoprene sleeve insulates hand from cold during discharge. Compatible with threaded CO2 cartridges. Includes one 16g cartridge.

Colors: Silver, Purple, Red, Blue, Black
(Blue color not available in U.S.A.)

CONTROL DRIVE CO2
CNC machined aluminum dispenser with brass internals. CNC control knoll twists for easy and controlled inflation. Twin Slip Chuck head presses on to Presta and Schrader valves. Neoprene sleeve insulates hand from cold during discharge. Compatible with threaded CO2 cartridges. Includes one 16g or 25g cartridge.

16g Cartridge: 16g (without CO2)
25g Cartridge: 16g (without CO2)
Colors: Silver, Purple, Red, Blue, Black
(Blue color not available in U.S.A.)

NEW
TWIN SPEED DRIVE CO2
CNC machined aluminum dispenser with brass internals. Slip-on valve operation allows for quick inflation. Twin Slip Fit head presses onto Presta or Schrader valves. Two-piece head allows for easy O-ring replacement. Neoprene sleeve insulates hand from cold during discharge. Compatible with threaded CO2 cartridges. Includes one 16g or 25g cartridge.

16g Cartridge: 16g (without CO2)
25g Cartridge: 16g (without CO2)
Colors: Silver, Purple, Red, Blue, Black

TWIN KIT
Compact, all-in-one CO2 and tire repair kit. Includes Twin Speed Drive, two threaded 16g or 25g CO2 cartridges, and a Lever Kit. Custom neoprene and velcro strap secures all items together. Kit easily fits in most packs, jersey pockets, or can be attached to seat posts.

TWIN Kit 16g Cartridge, 177g
TWIN Kit 25g Cartridge, 270g
Colors: Black

CO2 CARTRIDGES
Threaded CO2 cartridges for use with all Lezyne CO2 inflators. 16g CO2 cartridges are compact and suitable for low-volume, high-pressure setups. 25g CO2 cartridges are suitable for high-volume mountain bike tires. Both cartridge sizes available as 5-piece refill packs or counter top boxes (20 quantity for 16g cartridges, 25 quantity for 25g cartridges). Bulk box of 16g cartridges (250 quantity) is also available.

REPAIR KIT
Convenient CO2 and tire repair package. Includes Twin Speed Drive, two threaded 16g CO2 cartridges, Power levers, and Smart Kit. Just the essentials for quick road and trailside tire repair.

16g Cartridge: 16g (without CO2)
25g Cartridge: 16g (without CO2)
Colors: Silver, Purple, Red, Blue, Black

CADDY KIT
Complete CO2 and tire repair kit in a simple, durable, and resealable pouch. Includes Caddy Sack, Twin Speed Drive, two threaded 16g CO2 cartridges, Power levers, and Smart Kit. Custom neoprene and velcro straps secure all items together. Fits into packs or jersey pockets.

16g Cartridge: 16g (without CO2)
25g Cartridge: 16g (without CO2)
Colors: Silver, Purple, Red, Blue, Black

TWIN KIT
Convenient, all-in-one CO2 and tire repair kit. Includes Twin Speed Drive, two threaded 16g or 25g CO2 cartridges, and a Lever Kit. Custom neoprene and velcro strap secures all items together. Kit easily fits in most packs, jersey pockets, or can be attached to seat posts.

BELLS & BOTTLE CAGES

CLASSIC BRASS BELL
Compact, classic shape constructed from modern, high quality materials. The bell itself is made from high-polished brass, mounted to a machined aluminum base. The small brass striker provides a sharp, impressively loud ring when flicked, warning others of your presence. A simple O-ring attaches the bell to a variety of tube sizes and shapes while integrating cleanly with any bicycle.

S: 21g  M: 28g  Colors: Silver, Black

ROAD DRIVE CARBON CAGE

39g  Colors: White, Black

CARBON CAGE SL
Robust and lightweight Full Carbon Tech races cage. Optimized side load shape for easy bottle access in compact frames. Engineered to hold bottles securely. Clean and stylish matte unidirectional (UD) carbon finish. Available in left- or right-side configurations.

31g  Colors: Black

CLASSIC SHALLOW BRASS BELL
Modern, unique low-profile design made from high-polished brass, mounted to a machined aluminum base. The brass striker politely and effectively alerts others with a sharp, definitively loud ring. A simple O-ring attaches the bell to a variety of tube sizes and shapes while elegantly complementing all styles of bikes.

27g  Colors: Black, Silver

“Bell enthusiasm has grown beyond commuting to include both performance-oriented mountain bikers and impressively, even the pro road racing ranks,” states an article written for Bicycling Magazine by James Stout. Bells are hot, and we’ve added the hottest bells to our Year 11 product line. These are certain to complement the slickest road bikes and bro-est mountain bikes. Just like our bottle cages have been doing for years.

DEMON STRAPLESS BOTTLE CAGE
Robust and lightweight Full Carbon Tech races cage. Optimized side load shape for easy bottle access in compact frames. Engineered to hold bottles securely. Clean and stylish matte unidirectional (UD) Carbon finish. Available in left- or right-side configurations.

39g  Colors: White, Black

YEAR ELEVEN

ALISON TETRICK

Photo: Sebas Romero
ALLOY CAGE
One-piece, extruded aluminum construction. Strong and lightweight CNC machined, heat treated design. Capably secures a wide range of bottle types and shapes. Integrated pump mount and velcro strap hold a Road Drive style hand pump.
42g
Colors: Black, Silver, Purple, Red, Blue, White

FLOW CAGE SL
Durable, fiber reinforced Composite Matrix construction. Optimized side-load shape for easy bottle access in compact frames. Engineered to hold bottles securely. Dual mounting holes allow fine tuning of position on frame. Available in left- or right-side configurations. Sold individually or in pairs.
40g
Enhanced Graphics, Colors: Black, White, Red, Blue, Purple, Green
40g
Standard Graphics, Colors: Black, White

FLOW CADDY
50g // 73 x 73 x 135 mm // 0.7L Capacity
Without sleeve insert

FLOW BOTTLE
Classic water bottle design with Lezyne styling. Optimized for Lezyne bottle cages. Traditional, gimmick-free top provides ample beverage consumption. Made with recyclable plastic.
750 mL
Color: White

POWER CAGE
Simple, lightweight hollow aluminum tube construction. Stamped aluminum base is formed and welded to tubing. Classic, wrap-around design securely holds bottles over rough terrain. Large opening provides easy bottle access.
66g
Colors: Silver, Purple, Red, Blue, Black

FLOW CAGE
Constructed entirely of extruded aluminum. CNC machined and heat treated for a strong, lightweight design. Structured ribs and top catch secures a wide range of bottle types and sizes. Simple design provides easy bottle retrieval and docking.
38g
Colors: Black, Silver, Purple, Red, Blue, White

FLOW CAGE HP
Durable, fiber reinforced Composite Matrix construction. X-Grip cage design with dual upper catches holds bottle securely. Integrated mount and velcro strap hold an HP style hand pump. Large opening provides easy bottle access. Sleek and stylish two-tone artwork.
54g
Colors: Black, White

FLOW CAGE SL
Durable, fiber reinforced Composite Matrix construction. Optimized side-load shape for easy bottle access in compact frames. Engineered to hold bottles securely. Dual mounting holes allow fine tuning of position on frame. Available in left- or right-side configurations. Sold individually or in pairs.

Standard Graphics, Colors: Black, White

FLOW CAGE
One-piece, extruded aluminum construction. Strong and lightweight CNC machined, heat treated design. Capably secures a wide range of bottle types and shapes. Integrated pump mount and velcro strap hold a Road Drive style hand pump.
42g
Colors: Black, Silver, Purple, Red, Blue, White

FLOW CAGE SL
Durable, fiber reinforced Composite Matrix construction. Optimized side-load shape for easy bottle access in compact frames. Engineered to hold bottles securely. Dual mounting holes allow fine tuning of position on frame. Available in left- or right-side configurations. Sold individually or in pairs.
40g
Enhanced Graphics, Colors: Black, White, Red, Blue, Purple, Green
40g
Standard Graphics, Colors: Black, White

FLOW CADDY
50g // 73 x 73 x 135 mm // 0.7L Capacity
Without sleeve insert

FLOW BOTTLE
Classic water bottle design with Lezyne styling. Optimized for Lezyne bottle cages. Traditional, gimmick-free top provides ample beverage consumption. Made with recyclable plastic.
750 mL
Color: White
SHOP TOOLS

CNC ROD
Professional grade wrench/handle with 32 mm hex opening. Extremely durable and highly functional CNC machined aluminum construction. Designed for use with our Two-Way bottom bracket and cassette tools. Machined set screw holds tools in place; tightened by hand or 6mm hex. Elegant high polish anodized finish.

335 mm // 13.2 in

EXBBT-CLT
Two-Way integrated external bottom bracket and cassette lock ring tool. For use with 32 mm CNC Rod or an adjustable wrench. Compatible with many popular external bottom brackets and cassette lock rings.

External BB: Campagnolo, Chris King, FSA, Pinarello, Shimano, SRAM, Token, etc.
Cassette Lock Ring: Shimano, SRAM, SunRace, SunTour, et al.

SPLBBT-NBBT
Two-Way integrated ISIS Drive bottom bracket tool and 8-point bottom bracket tool. For use with 32 mm CNC Rod or an adjustable wrench. Compatible with many popular bottom brackets.

Splined/Notched/Bear Trap Face: SRAM, SRAM/Truvativ, etc.

EXBBT-SOC
External bottom bracket tool for use with 32 mm CNC Rod, adjustable wrench or 3/8 inch socket drive. Compatible with many popular bottom brackets.

External BB: Campagnolo, Chris King, FSA, Phil Wood, Shimano, SRAM, etc.

YEAR ELEVEN

When it comes to making shop tools, we know there is absolutely no room for mediocrity. An inferior product will be quickly abandoned the instant a mechanic detects weakness. That’s why—just like the rest of the products we create—we build the best tools possible. And then we take it one step further by adding a little style to our lineup, which further sets us apart in the typically clone-like world of shop tools.

CNC PEDAL ROD
Heavy duty, shop quality pedal wrench. CNC machined aluminum handle with super-hard chrome head. Two 15 mm offset wrench openings positioned for optimal leverage. Integrated bottle opener.

200 mm // 7.9 in

CNC CHAIN ROD
Heavy duty, shop quality chain whip with integrated lock ring tool. CNC machined aluminum handle with chromoly head. Custom Lezyne chain attached with stainless hardware for easy replacement. Compatible with 8/9/10/11 speed cassettes.

205 mm // 8.1 in
CLASSIC PEDAL ROD
Classic varnished wood handle with super-tough chromoly head. Two 15mm offset wrench openings positioned for optimal leverage. Integrated bottle opener.
338 mm // 13.3 in

CLASSIC CHAIN ROD
Shop quality chain whip with integrated lock ring tool. Classic varnished wood handle with chromoly head. Custom Lezyne chain attached with stainless hardware for easy replacement. Compatible with 8/9/10/11 speed cassettes.

CLASSIC CHAIN DRIVE
The ultimate, shop-quality chain breaker. Incredibly robust steel body, ergonomic driver, and classic wood handle. Innovative, adjustable design works with any style of chain. Hardened steel breaker pin, with extra pin stored in handle. Elegant, yet functional design.

CHAIN DRIVE
Shop quality 8/9/10/11/12 speed chain breaker. Durable cast and CNC machined steel body. Ergonomically contoured shape for comfort and ease of use. Replaceable hardened steel breaker pin. Four popular spoke wrenches (also removes breaker pin) integrated into body. Spare breaker pin included.

A reliable patch, a tire lever that won’t break, a waterproof case — these often overlooked repair items are absolutely crucial when the dreaded flat tire happens. Being able to rely on your equipment to finish a ride can make all the difference in getting home. That’s why we develop premium tire repair products that are engineered to get you back on the road. We can’t prevent flat tires, but we certainly offer reliable ways to fix them.

YEAR ELEVEN

A reliable patch, a tire lever that won’t break, a waterproof case — these often overlooked repair items are absolutely crucial when the dreaded flat tire happens. Being able to rely on your equipment to finish a ride can make all the difference in getting home. That’s why we develop premium tire repair products that are engineered to get you back on the road. We can’t prevent flat tires, but we certainly offer reliable ways to fix them.

LEVER KIT
Integrated patch kit and tire lever combo. Aluminum case holds patch kit, tire levers serve as press-fit end caps. Kit includes six glueless patches, tire boot and stainless steel scuffer. Patches are highly pliable and coated with custom-developed, super aggressive adhesive. The composite matrix levers are super durable and easy to use. Available individually or in a counter top ready box (24 count).

Colors: Grey, Black, Purple, Red, Blue, Gold
(Blue color not available in U.S.)

METAL KIT
Waterproof aluminum case with rubber end caps. Kit includes six glueless patches, tire boot and stainless steel scuffer. Patches are highly pliable and coated with custom-developed, super aggressive adhesive. Multiple colors available. Available individually or in a counter top ready box (24 count).

Colors: Grey, Black, Purple, Red, Blue, Gold
(Blue color not available in U.S.)

CUSTOM KIT PROGRAM
Have a customized brand, event or personalized logo laser etched onto a Lever Kit or Metal Kit. Artwork can be up to 50 x 25 mm in size. Available in red, gold, blue and gray. Custom kits come in a 24-pack, counter top ready box (4 boxes per end). Contact our sales office for more information.

Colors: Grey, Black, Purple, Red, Blue, Gold
(Blue color not available in U.S.)
SMART KIT

Ultra compact polypropylene case. Kit includes six glueless patches, tire boot and stainless steel scuffer. Patches are highly pliable and coated with custom-developed, super aggressive adhesive. Available individually or in a counter top ready box (34 count).

CLASSIC KIT

Traditional, dependable patch kit. Contains rubber adhesive (3oz), patches (8 round, 2 oval), stainless steel tire boot. Available individually or in a counter top ready box (24 count).

SABER LEVER

Heavy-duty tire lever. 15 mm pedal wrench and bottle opener. Forged, heat treated and CNC machined chromoly steel. Long, high-leverage 150mm lever with aggressive hook design. Sold as a pair.

ALLOY LEVER

Forged, aerospace grade aluminum. Aggressive hook geometry makes tire removal easy. Compact, convenient, dual hook design. Sold as a pair.

MATRIX LEVERS

Strong, fiber reinforced Composite Matrix material. Aggressive hook geometry makes tire removal easy. Compact, convenient, dual hook design. Available as pairs or in a counter top ready box (30 pairs).

POWER LEVERS

Strong, fiber reinforced Composite Matrix material. Aggressive hook geometry makes tire removal easy. Comfortable, wide handle design with integrated spoke hook. Available as pairs or in a counter top ready box (30 pairs).

SMART KIT

Ultra compact polypropylene case. Kit includes six glueless patches, tire boot and stainless steel scuffer. Patches are highly pliable and coated with custom-developed, super aggressive adhesive. Available individually or in a counter top ready box (34 count).
