MECHANICAL YEAR 12

Mechanical Precision has been the cornerstone of Lezyne since we began 12 years ago. Every product we produce—from professional level shop tools to bells and everything in between—is conceptualized, engineered and produced in-house by Lezyne. This gives us a level of precision, performance and durability that is second-to-none. We use the finest materials and do thorough quality control checks on everything we make. Once you try a Lezyne product you’ll feel our dedication to perfection.
FROM BIKE SHOP MECHANICS TO WORLDTOUR TECHNICIANS

our superior quality floor pumps have consistently been the number one choice of professionals worldwide. Our pump performance and durability is second to none because we’re dedicated to extensive designing and manufacturing with the finest materials available and every pump is 100-percent quality control tested before leaving the factory. Our wide range of styles now includes the Shop Floor Drive, which features repair tools conveniently stored in the pump’s handle.
**CNC DIGITAL DRIVE**
- CNC machined aluminum construction.
- Precision digital gauge (220 psi / 15 bar).
- Composite matrix handle and base.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**ALLOY DIGITAL DRIVE**
- CNC machined aluminum construction.
- Precision digital gauge (220 psi / 15 bar).
- Stainless steel handle with aluminum handle.
- Extra long nylon reinforced braided hose with aluminum couplers.
- ABS1 Pro chuck.
- Colors: Black, Silver

**STEEL DIGITAL DRIVE**
- Steel barrel & piston w/ machined aluminum base.
- Precision digital gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long nylon reinforced braided hose with aluminum couplers.
- ABS1 Pro chuck.
- Colors: Black, Silver

**DIGITAL MACRO FLOOR DRIVE**
- Steel barrel & piston.
- Precision digital gauge (220 psi / 15 bar).
- Composite matrix handle and base.
- Extra long, high strength hose.
- Available with ABS Flip-Thread chuck or Dual Valve
- Colors: Black (gloss), Black (matte), Red, White

**CLASSIC FLOOR DRIVE**
- Steel barrel & piston w/ composite matrix base.
- Precision digital gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**STEEL FLOOR DRIVE**
- CNC machined aluminum construction.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Extra long nylon reinforced braided hose with aluminum couplers.
- ABS1 Pro chuck.
- Colors: Black, Silver

**MACRO FLOOR DRIVE**
- Steel barrel and piston.
- Composite matrix handle and base.
- Extra long, high strength hose.
- Available with ABS Flip-Thread chuck or Dual Valve
- Colors: Black (gloss), Black (matte), Red, White

**ALLOY FLOOR DRIVE**
- CNC machined aluminum construction.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Stainless steel handle with aluminum handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**DIGITAL FLOOR DRIVE**
- Steel barrel & piston.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**SHOCK DIGITAL DRIVE**
- CNC machined aluminum construction.
- Precision digital gauge (350 psi / 24.13 bar).
- Stainless steel handle with aluminum handle.
- Extra long, high strength hose.
- ABS1 Pro chuck, Hardened steel ABS chuck with bleed button for rapid or fine release tuning.
- Colors: Silver

**SPORT DIGITAL DRIVE**
- Steel barrel & piston w/ composite matrix base.
- Precision digital gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**CNC FLOOR DRIVE**
- CNC machined aluminum construction.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Extra long nylon reinforced braided hose with aluminum couplers.
- ABS1 Pro chuck.
- Colors: Black, Silver

**ALLOY DIGITAL DRIVE**
- CNC machined aluminum construction.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver

**CLASSIC DIGITAL DRIVE**
- Steel barrel & piston w/ composite matrix base.
- Oversized 3.5-inch gauge (220 psi / 15 bar).
- Stainless steel handle.
- Extra long, high strength hose.
- ABS1 Pro chuck.
- Colors: Black, Silver
FLOOR PUMPS - HIGH VOLUME

DIGITAL PRESSURE OVER DRIVE
- Integrated system to seat tubeless tires.
- Manually pressurized secondary chamber with a stainless steel foot lever release.
- Precision digital gauge (220 psi / 15 bar).
- Durable steel and aluminum construction.
- Extra long, high strength hose.
- ABS1 Pro chuck.

PRESSURE OVER DRIVE
- Integrated system to seat tubeless tires.
- Manually pressurized secondary chamber with a stainless steel foot lever release.
- 2.5 inch gauge (160 psi / 11 bar).
- Durable steel and aluminum construction.
- Extra long, high strength hose.
- ABS1 Pro chuck.

CNC TRAVEL FLOOR DRIVE
- Compact, lay-flat design.
- CNC machined aluminum construction.
- Durable anodized high-gloss finish.
- Compact 1.5 inch gauge (160 psi / 11 bar).
- ABS Flip-Thread chuck.
- Felt lined canvas bag included.

SLIP CHUCK
- Slip-fit, Presta only for ABS Flip-Thread chuck.
- CNC machined aluminum construction.
- Two-piece tool free seal replacement design.
- Includes six replacement seals.

COLORS:
- Color: Black
- Color: Silver

ABS1 PRO
- CNC machined aluminum and composite matrix construction.
- Thread-on design.
- Chuck “flips” for Presta and Schrader compatibility.
- Integrated Presta valve core tool.
- Soft lubricating brass swivel.
- Ergonomic design.

COLORS:
- Color: Black
- Color: Silver

STEEL TRAVEL FLOOR DRIVE
- Compact, lay-flat design.
- CNC machined aluminum construction.
- Compact 1.5 inch gauge (160 psi / 11 bar).
- ABS Flip-Thread chuck.

COLORS:
- Color: Black
- Color: Silver

DIGITAL OVER DRIVE
- Oversized aluminum barrel and steel piston with aluminum base.
- High volume for plus sized tires.
- Precision digital gauge (60 psi / 4 bar).
- Extra long high strength oversized hose.
- High volume ABS1 Pro chuck.

ALLOY OVER DRIVE
- Oversized aluminum barrel and steel piston with aluminum base.
- High volume for plus sized tires.
- 2.5 inch gauge (60 psi / 4 bar).
- Extra long high strength oversized hose.
- High volume ABS1 Pro chuck.

CLASSIC OVER DRIVE
- Machined steel barrel and piston with aluminum base.
- High volume for plus sized tires.
- 2.5 inch gauge (60 psi / 4 bar).
- Extra long high strength oversized hose.
- High volume ABS1 Pro chuck.

STEEL TRAVEL FLOOR DRIVE
- Compact, flat laying design.
- Steel barrel & piston w/ machined aluminum base.
- Varnished wood handle.
- Compact 1.5 inch gauge (160 psi / 11 bar).
- ABS Flip-Thread chuck.

COLORS:
- Color: Black
- Color: Silver

Valve Extenders
- 30mm Presta valve extenders.
- CNC machined aluminum.
- Threaded tip.

COLORS:
- Color: Black
- Color: Silver

DUAL VALVE HEAD
- Dual valve chuck fits Presta, Schrader and Dunlop valves.
- Composite matrix construction.
- Aluminum locking lever.
- Rebuildable.
OUR LINE OF ADVANCED, PRECISION HAND PUMPS HAVE REDEFINED what you’d expect from the category. We offer a wide range of compact and efficient high pressure or high volume pumps made from the finest materials. Additional options include highly accurate digital gauges as well as durable, high quality chucks for both Presta and Schrader valves. This year we’ve developed a new hose with an integrated valve core tool that will be included with select models.
CARBON ROAD DRIVE
• 180 mm, 73g (S); 216 mm, 83g (M) / 160 psi, 11 bar.
• FCT (Full Carbon Tech) barrel and handle.
• CNC machined aluminum piston and hardware.
• Compact overlapping design.
• Presta and Schrader valve compatible ABS Flex Hose with integrated valve core tool.
• Includes FCT frame mount.

CARBON DRIVE LITE
• 170 mm, 80g / 120 psi, 8.3 bar.
• MCT composite barrel and handle.
• CNC machined aluminum piston and hardware.
• Compact overlapping design.
• Presta and Schrader valve compatible ABS Flex Hose with integrated valve core tool.
• Includes Composite Matrix frame mount.

GAUGE DRIVE HP
• 232 mm, 119g / 120 psi, 8.3 bar.
• CNC machined aluminum barrel, handle and piston.
• Presta and Schrader valve compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

PRESSURE DRIVE
• 170 mm, 89g (S); 216 mm, 102g (M) / 120 psi, 8.3 bar.
• CNC machined aluminum construction with compact overlapping handle.
• Presta and Schrader valve compatible ABS Flex Hose with integrated valve core tool.
• Includes Composite Matrix frame mount.

LITE DRIVE
• 180 mm, 80g (S); 219 mm, 92g (M) / 160 psi, 11 bar.
• CNC machined aluminum construction with compact overlapping handle.
• Presta and Schrader valve compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

TECH DRIVE HP
• 170 mm, 88g (S); 216 mm, 102g (M) / 120 psi, 8.3 bar.
• CNC machined aluminum construction with compact overlapping handle.
• Presta and Schrader compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

Colors: Black, Yellow, Purple, Red, Blue (Blue color not available in U.S.A.)

Colors: Black, Silver

Colors: Black, Silver, Purple, Red, Blue (Blue color not available in U.S.A.)
HP DRIVE
- 170 mm, 89g (S); 216 mm, 102g (M) / 120 psi, 8.3 bar.
- CNC machined aluminum barrel and piston.
- Overlapping Composite Matrix handle.
- Presta and Schrader valve compatible ABS Flex Hose.
- Includes Composite Matrix frame mount.
Colors: Black, Silver, Purple, Red, Blue  
(Blue color not available in U.S. A.)

SPORT DRIVE HP
- 170 mm, 75g / 120 psi, 8.3 bar.
- CNC machined aluminum barrel and piston.
- Overlapping Composite Matrix handle.
- Presta and Schrader valve compatible Flex Hose.
- Includes composit matrix frame mount.

MICRO FLOOR DIGITAL DRIVE XL
- 302 mm, 425g / 35 psi, 2.4 bar.
- Integrated highly accurate digital gauge.
- High volume portable pump optimized for plus-size tire systems.
- CNC machined aluminum barrel, piston, base and T-handle.
- Stainless steel footpeg for added stability.
- Presta and Schrader compatible ABS Flip-Thread Chuck.

MICRO FLOOR DIGITAL DRIVE HV
- 300 mm, 150g / 90 psi, 6.2 bar.
- Portable pump with integrated highly accurate digital gauge.
- CNC machined aluminum barrel, piston, base and T-handle.
- Stainless steel footpeg for added stability.
- Presta and Schrader valve compatible ABS Flip-Thread Chuck.
- Includes Composite Matrix frame mount.
Colors: Silver, Black

DIGITAL SHOCK DRIVE
- 225 mm, 110g / 90 psi, 4 bar.
- Integrated highly accurate digital gauge.
- Compact and lightweight aluminum construction.
- Designed for trailside or home use.
- Hose threads into handle.
- Zero-loss chuck design unthreads after valve pin seals.

SHOCK DRIVE
- 300 mm, 167g / 400 psi, 275 bar.
- Full CNC machined aluminum construction.
- Designed for trailside or home use.
- Dialtype gauge.
- Hose threads into handle.
- Zero-loss chuck design unthreads after valve pin seals.

MICRO FLOOR DRIVE XL
- 302 mm, 167g / 35 psi, 2.4 bar.
- CNC machined aluminum construction.
- Extra large high volume barrel optimised for plus-size tires.
- Stainless steel footpeg for added stability.
- Presta and Schrader valve compatible ABS Flip-Thread Chuck.

MICRO FLOOR DRIVE HV/HVG
- 300 mm, 194g (HVG), 300 mm, 150g (HV) / 90 psi, 6.2 bar
- Portable pump with integrated gauge (HV version without gauge).
- CNC machined aluminum barrel, piston, base and T-handle.
- Stainless steel footpeg for added stability.
- Presta and Schrader valve compatible ABS Flip-Thread Chuck.
- Includes Composite Matrix frame mount.
Colors: Silver, Black

Colors: Black, Silver, Purple, Red, Blue  
(Blue color not available in U.S. A.)

HAND PUMPS - HIGH PRESSURE & SHOCK PUMPS

HAND PUMPS - HIGH VOLUME
DIGITAL ALLOY DRIVE

• 216 mm, 173g / 90 psi, 6.2 bar.
• Integrated highly accurate digital gauge.
• CNC machined aluminum construction with compact overlapping handle.
• Presta and Schrader valve compatible ABS Flex Hose with integrated valve core tool.

GAUGE DRIVE HV

• 232 mm, 142g / 90 psi, 6.2 bar.
• CNC machined aluminum barrel, handle and piston.
• Presta and Schrader valve compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

TECH DRIVE HV

• 170 mm, 111g (S); 216 mm, 127g / 90 psi, 6.2 bar.
• CNC machined aluminum barrel, handle, and piston.
• Compact overlapping handle.
• Presta and Schrader valve compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

SPORT DRIVE HV

• 170 mm, 100g / 90 psi, 6.2 bar.
• Machined aluminum barrel and piston.
• Presta and Schrader valve compatible ABS Flex Hose.
• Includes Composite Matrix frame mount.

ALLOY DRIVE

• 170 mm, 112g (S); 216 mm, 128g (M) / 90 psi, 6.2 bar.
• CNC machined construction with compact overlapping handle.
• Presta and Schrader valve compatible ABS Flex Hose with integrated valve core tool.
• Includes Composite Matrix frame mount.

HV DRIVE

• 170 mm, 94g (S); 216 mm, 109g (M) / 90 psi, 6.2 bar.
• CNC machined aluminum barrel and piston.
• Overlapping Composite Matrix handle.
• Presta and Schrader valve compatible ABS Flex Hose.

DIGITAL CHECK DRIVE

• 150 mm, 60g / 350 psi, 24 bar
• Compact tire pressure gauge with highly accurate digital gauge.
• Composite Matrix design.
• Machined aluminum head.
• Presta or Schrader valve compatible flip-chuck.

ABS PEN GAUGE

• 210 mm, 32g
• ABS Flex Hose with integrated pressure gauge.
• Stores in handle of ABS Flex Hose equipped Lezyne hand pumps (medium and large sizes only).
• Presta and Schrader valve compatible ABS Flip-Thread Chuck.
OUR ADVANCED CO2 INFLATION SYSTEMS ARE ELEGANTLY machined from aluminum and equipped with brass and stainless steel hardware. Thanks to advanced engineering they function as beautifully as they look. From simple slip-fit designs to highly advanced, controlled release systems our CO2 inflators offer superior performance for all cyclists looking for instant tire inflation solutions.

**ALLOY DRIVE CO2**
- Durable CO2 dispenser constructed from CNC machined aluminum.
- Trigger Valve Operation for easy and controlled inflation.
- Twin Chuck head threads on to Presta and Schrader valves.
- Integrated canister stores one 16g CO2 cartridge.
- Canister insulates hands from cold during discharge.
- Compatible with threaded CO2 cartridges only.

**TRIGGER SPEED DRIVE CO2**
- CNC machined aluminum dispenser with brass internals.
- Trigger Valve Operation for easy and controlled inflation.
- Slip Fit head presses onto Presta valve only.
- Neoprene sleeve insulates hands from cold during discharge.
- Available with one 16g CO2 or as a head only.
- Compatible with threaded CO2 cartridges only.

**PRESSURE DRIVE CFH**
- Versatile 2-in-1 hand pump or CO2 inflator system.
- Integrated steel braided hose doubles as the CO2 dispenser.
- Pump features a CNC machined aluminum body, piston and handle.
- Presta and Schrader compatible Flip-Thread Chuck.
- Comes with one 16g CO2 cartridge and mounting hardware.
- Mounts to a frame or fits in a jersey pocket.
- Compatible with threaded CO2 only.

**CFH MOUNTING OPTIONS:**
- Standard mounting options
- Alternate mounting options (CO2 cartage sold separately)
TRIGGER DRIVE CO2
- CNC machined aluminum dispenser with brass internals.
- Trigger Valve Operation for easy and controlled inflation.
- Twin Chuck head threads onto Presta and Schrader valves.
- Neoprene sleeve insulates hands from cold during discharge.
- Available with one 16g CO2 or as a head only.
- Compatible with threaded CO2 cartridges only.

CONTROL DRIVE CO2
- CNC machined aluminum dispenser with brass internals.
- CNC control knob twists for easy and controlled inflation.
- Twin Slip-Fit head presses onto Presta and Schrader valves.
- Neoprene sleeve insulates hands from cold during discharge.
- Available with one 16g or 25g CO2 or as a head only.
- Compatible with threaded CO2 cartridges only.

Colors: Silver, Purple, Red, Blue, Black (25g only)
CO2 INFLATORS

TWIN SPEED DRIVE CO2
• CNC machined aluminum dispenser with brass internals.
• Slip-on valve operation for quick inflation.
• Twin Slip Fit head presses onto Presta and Schrader valves.
• Neoprene sleeve insulates hands from cold during discharge.
• Available with one 16g or 25g CO2 or as a head only.
• Compatible with threaded CO2 cartridges only.
  Color: Black, Silver

CO2 CARTRIDGES
• Threaded CO2 cartridges for use with all Lezyne or threaded CO2 inflators.
  • 16g cartridges are compact and suitable for low-volume/high pressure.
  • 20g cartridges are similar in size to 16g, suitable for medium volume/pressure.
  • 25g cartridges suitable for high volume mountain bike tires.
• Available in 5-pack, 30-pack or in bulk (contact Lezyne for bulk pricing).

TWIN KIT
• Compact, all-in-one CO2 and tire repair kit.
• Twin Speed Drive CO2 head.
• Two threaded CO2 cartridges (16g or 25g).
• Lever Kit.
• Custom neoprene and Velcro strap secures items together.
• Can be attached to seat posts.
• Fits neatly in most packs or jersey pockets.

TWIN SPEED DRIVE CO2

CADDY KIT
• Complete CO2 and tire repair kit in a simple, durable pouch.
• Caddy Sack.
• Twin Speed Drive CO2 head.
• Two 16g CO2 cartridges.
• Smart Kit glueless patch kit.
• Power Levers.

REPAIR KIT
• Convenient CO2 and tire repair kit.
• Includes Twin Speed Drive CO2 head.
• Two threaded 16g CO2 cartridges.
• Power Levers.
• Smart Kit glueless patch kit.
OUR BOTTLE CAGES ARE ENGINEERED AND TESTED TO HOLD

bottles tightly over any terrain while providing easy access thanks to creative designs including side-loading, top catches and larger openings. This year we’ve incorporated storage options so you can carry more repair products on the bike rather than in a pack. All our cages are made from premium carbon, aluminum and composite matrix. Just like our cages, our line of classically designed bells are of the highest quality and feature the finest materials available.

CLASSIC SHALLOW BRASS BELL

• Modern, unique low-profile design.
• Bell and striker are made from high-polished brass.
• Machined aluminum base.
• Simple O-ring attachment mounts cleanly to a variety of tube sizes and shapes.
• Definitively loud ringtone.

CLASSIC BRASS BELL

• Compact, classic bell shape constructed in two sizes for a high-quality sound.
• Bell and striker are made from high-polished brass (also available in black).
• Machined aluminum base.
• Simple O-ring attachment mounts cleanly to a variety of tube sizes and shapes.
• Impressively loud ringtone.

FLOWS STORAGE CAGE

• Durable fiber reinforced composite matrix construction.
• Optimized side-load design for easy access in compact frames.
• Available in right-side configuration only.
• Integrated storage container.
• CO2 cartridge holder on both sides of the cage.
• Loaded Kit option: integrated storage container includes CO2 head, V16 multi-tool, Smart Kit glueless patch kit; CO2 cartridge holder has two included cartridges.

* Loaded kit not available with CO2 cartridges in all countries.
ROAD DRIVE CARBON CAGE 39g
• Super light and incredibly strong utilizing our Full Carbon Tech construction.
• Elegant one-piece design.
• Optimized shape securely holds bottles.
• Integrated pump mount for Road Drive and Lite Drive model hand pumps.
• Stylish matt unidirectional carbon finish.

FLOW STORAGE ADAPTER
• Integrated stainless steel storage bracket that fits under a bottle cage.
• Holds Two Speed Drive CO2 head, VS tool, two CO2 cartridges and two Matrix levers.
• Available as a loaded kit only.
* Loaded kit not available with CO2 cartridges in all countries.

CARBON CAGE SL 35g
• Super light and incredibly strong utilizing our Full Carbon Tech construction.
• Optimized side-load design for easy access in compact frames.
• Available in left or right side configurations.
• Engineered and tested to hold bottles securely.
• Stylish matt unidirectional carbon finish.

CNC CAGE 39g
• Constructed entirely from CNC-machined aluminum.
• Strong and lightweight heat-treated design.
• Sturdy rib and top-catch secures a wide variety of bottles.
Colors: Black, Silver, Purple, Red, Blue, White

ALLOY CAGE 43g
• One-piece extruded aluminum construction.
• Strong and lightweight CNC-machined heat-treated design.
• Integrated pump mount for Road Drive and Lite Drive model pumps.
• Capably secures a wide variety of bottles.
Colors: Black, Silver, Purple, Red, Blue, White

TWIN SPEED DRIVE HEAD V 5 MULTI-TOOL
2 x 16g CO2 CARTRIDGES MATRIX LEVERS
FLOW CAGE HP 50g
- Durable fiber reinforced Composite Matrix construction.
- X-Grip cage design with dual upper catches holds bottles securely.
- Integrated mount and Velcro strap holds High Pressure model hand pumps.
- Colors: Black, White

FLOW CAGE 48g
- Durable fiber reinforced Composite Matrix construction.
- X-Grip cage design with dual upper catches holds bottle securely.
- Colors: Black, White

FLOW CAGE SL 48g
- Durable reinforced Composite Matrix construction.
- Optimized side-load design for easy access in compact frames.
- Available in left or right side configurations.
- Sold separately or in pairs (black and white only).
- Colors: Black, White, Red, Blue, Purple, Green

FLOW BOTTLE
- Classic water bottle with Lezyne logo.
- Optimized for Lezyne bottle cages.
- Ample beverage flow.

FLOW CADDY 60g
- Lightweight, rigid container that fits in standard bottle cages.
- Universal storage for essential roadside repair items.
- Water resistant screw on lid.
- Available with or without organizer sleeves.

POWER CAGE 66g
- Simple, lightweight aluminum tube construction.
- Stamped aluminum base is formed and welded to the tubing.
- Classic, wrap around design securely holds bottles over rough terrain.
- Colors: Black, Purple, Red, Blue, Silver
SHOP TOOLS

GREAT SHOP TOOLS SHOULD ALWAYS BLEND SUPERIOR FUNCTION

with elegant styling. Our tools feature CNC machined aluminum and varnished wood designs enhanced with hardened steel bits and heads so they’re tough enough for professional use yet stylish enough for display in any pro or home mechanic’s workshop. We also conveniently incorporate replaceable heads, bits and handles as well as supplying extra pins with our professional grade chain breakers.

CNC PEDAL ROD
- Heavy duty shop quality pedal wrench.
- CNC machined aluminum handle with durable chromoly head.
- Two 15 mm offset wrench openings positioned for optimum leverage.
- Replaceable head and handle.
- Integrated bottle opener.

EXBBT-CLT
- Two-Way integrated external bottom bracket, cassette and disc brake lock ring tool.
- For use with our 32 mm CNC Rod or 32 mm wrench.

CNC CHAIN ROD
- Heavy duty shop quality chain whip with integrated lock ring tool.
- CNC machined aluminum handle with durable chromoly head.
- Custom Lezyne chain attached with stainless threaded bolts for easy replacement.
- Replaceable head and handle.
- Compatible with 7/8/9/10/11/12 speed cassettes.

CNC ROD
- Professional grade wrench handle with 32 mm hex opening.
- Durable CNC machined aluminum construction with high polish finish.
- Designed for use with our Two-Way bottom bracket and cassette tools.
- Machined set screws holds tools in place (tightened by hand or 6 mm hex).

SPLBBT-NBBT
- Two-Way integrated ISIS Drive and 8-point bottom bracket tool.
- For use with our 32 mm CNC Rod or 32 mm wrench.
- Splined/Notched/84 Bike Fast, Shimano, SRAM/Truvativ, Etc.

EXBBT-SOC
- External bottom bracket tool.
- For use with our 32 mm CNC Rod, an adjustable wrench or 3/8 socket drive.
- External BB: Campagnolo, Chris King, FSA, Phil Wood, Shimanoe, SRAM, Truvativ, Etc.
CLASSIC PEDAL ROD
- Shop quality pedal wrench.
- Varnished ergonomic wood handle with durable chromoly head.
- Two 15 mm offset wrench openings positioned for optimum leverage.
- Replaceable head and handle.
- Integrated bottle opener.

CLASSIC CHAIN ROD
- Shop quality chain whip with integrated lock ring tool.
- Varnished ergonomic wood handle with durable chromoly head.
- Custom Lezyne chain attached with stainless hardware for easy replacement.
- Replaceable head and handle.
- Compatible with 7/8/9/10/11/12 speed cassettes.

CLASSIC CHAIN ROD
- Shop quality chain whip with integrated lock ring tool.
- Varnished ergonomic wood handle with durable chromoly head.
- Two 15 mm offset wrench openings positioned for optimum leverage.
- Replaceable head and handle.
- Integrated bottle opener.

CLASSIC CHAIN DRIVE
- Shop quality chain breaker.
- Durable cast and CNC machined steel body.
- Ergonomically contoured shape.
- Replaceable hardened steel breaker pin.
- Four integrated spoke wrenches (also removes breaker pin).
- Adjustable design works with 7/8/9/10/11/12 speed chains.
- Spare breaker pin included.

CHAIN DRIVE
- Shop quality chain breaker.
- Durable cast and CNC machined steel body.
- Ergonomically contoured shape.
- Replaceable hardened steel breaker pin.
- Four integrated spoke wrenches (also removes breaker pin).
- Adjustable design works with 7/8/9/10/11/12 speed chains.
- Spare breaker pin included.

11-SPEED CHAIN DRIVE
- Shop quality chain breaker compatible with all chains.
- Campagnolo chain compatible.
- Durable cast and CNC machined steel body.
- Ergonomically contoured shape.
- Replaceable hardened steel breaker pin.
- Four integrated spoke wrenches (also removes breaker pin).
- Spare breaker pin included.

CLASSIC HEX ROD
- Chrome finish for superior style and function.
- Long leverage design with ergonomic wood handle.
- High strength chrome vanadium steel tool.
- Available in 5 mm and 6 mm hexes.
- Spherical tip on long end adds versatility.

CLASSIC HEX ROD
- Chrome finish for superior style and function.
- Long leverage design with ergonomic wood handle.
- High strength chrome vanadium steel tool.
- Available in 6 mm and 8 mm hexes.
- Spherical tip on long end adds versatility.

CLASSIC HEX ROD
- Chrome finish for superior style and function.
- Long leverage design with ergonomic wood handle.
- High strength chrome vanadium steel tool.
- Available in 6 mm and 8 mm hexes.
- Spherical tip on long end adds versatility.

CLASSIC HEX ROD
- Chrome finish for superior style and function.
- Long leverage design with ergonomic wood handle.
- High strength chrome vanadium steel tool.
- Available in 6 mm and 8 mm hexes.
- Spherical tip on long end adds versatility.

3-WAY SPOKE WRENCH
- Shop quality 3-way spoke wrench.
- Compact ergonomic design.
- Durable cast steel body.
- CNC machined slots.

3-WAY SPOKE WRENCH
- Shop quality 3-way spoke wrench.
- Compact ergonomic design.
- Durable cast steel body.
- CNC machined slots.

3-WAY WRENCH
- Shop quality 3-way wrench.
- Two-piece Serviceable Body allows for easy bit exchange or replacement.
- Durable, CNC machined hardened steel body.
- Heavy-duty, drawn and forged D2 tool anti-corrosion steel bits.
- Extra replacement bits included with each wrench.
- Not all bits interchangeable between bodies.

HEX KIT
- Nine-piece shop quality Hex Kit.
- Ideal for home or shop mechanic.
- High strength chrome vanadium with durable chrome finish.
- Folding holder with built in hanger holes to store on a pegboard.
- Hexes: 1.5, 2, 2.5, 3, 4, 5, 6, 8 and 10 mm.
- J-shaped with spherical tip.

HEX KIT
- Nine-piece shop quality Hex Kit.
- Ideal for home or shop mechanic.
- High strength chrome vanadium with durable chrome finish.
- Folding holder with built in hanger holes to store on a pegboard.
- Hexes: 1.5, 2, 2.5, 3, 4, 5, 6, 8 and 10 mm.
- J-shaped with spherical tip.
MULTI TOOLS

OUR MULTI TOOLS ARE BUILT TO PERFORM LIKE SHOP TOOLS
when you’re making road or trailside repairs. Our designs are the most engineered and advanced available using key features like center-pivot bits, durable chain breakers and the finest, lightest and strongest materials available. Our newest tools, the V 16 and SV 16, have quick-link storage built into the sideplates so it won’t be lost in the mix.

TORQUE DRIVE 190g
• Machined aluminum construction.
• Removable handle.
• 2Nm – 9Nm torque capacity.
• Integrated magnet holds tool bits in place.
• Hex bits: 2, 2.5, 3, 4, 5, 6 mm.
• Star bits: T10, T25, T30.
• Phillips bit.
• Ratcheet bit.
• Includes soft shell carrying case with storage cutouts.

T-DRIVE 155g
• Machined aluminum construction.
• Removable handle.
• Integrated magnet holds tool bits in place.
• Hex bits: 2, 2.5, 3, 4, 5, 6, 8 mm.
• Star bits: T10, T25, T30.
• Phillips bit.
• Ratcheet bit.
• Includes soft shell carrying case with storage cutouts.

STORAGE DRIVE 77g
• Machined aluminum construction.
• Storage for bits in the handle.
• Integrated magnet holds tool bits in place.
• Hex bits: 4, 5, 6mm.
• Star bits: T25, T30.
• Includes strap for on the bike mounting.

WE’VE DEVELOPED A COLLECTION OF RELIABLE TIRE REPAIR ESSENTIALS

so you can ride with the assurance of not getting stranded. Our glueless patches use a super aggressive adhesive and our tire levers are made from the best and strongest materials. We sweat the little details by offering small waterproof cases and new for this year are two, thoughtfully engineered CNC aluminum tubeless tire repair kits that are compact, durable and stylish.

SMART KIT
- Ultra compact polypropylene case.
- Six highly adhesive glueless patches.
- Includes tire boot and stainless steel scuffer.
- Available individually or in a countertop box (34 pcs).

TUBELESS KIT
- Compact tubeless tire repair kit.
- Machined aluminum storage tube doubles as a handle.
- Combined tire reamer and insertion tool.
- Includes five tire plugs.
- Available individually or in a countertop box (24 pcs).

CLASSIC KIT
- Traditional style patch kit.
- Rubber adhesive (7 cc).
- Includes six round and two oval patches.
- Includes tire boot and stainless steel scuffer.
- Available individually or in a countertop box (24 pcs).

CLASSIC TUBELESS KIT
- Portable tubeless tire repair kit.
- Machined aluminum T-handle.
- Combined tire reamer and insertion tool.
- Includes five tire plugs.
- Available individually or in a countertop box (24 pcs).
LEVER KIT
- Integrated patch kit and tire lever combo.
- Aluminum case holds patches and tire levers serve as press-fit end caps.
- Six highly adhesive glueless patches.
- Two durable Composite Matrix tire levers.
- Includes tire boot and stainless steel scuffer.
- Available individually or in a countertop box (24 pcs).

METAL KIT
- Waterproof case with rubber end caps.
- Six highly adhesive glueless patches.
- Includes tire boot and stainless steel scuffer.
- Available individually or in a countertop box (24 pcs).

CUSTOM KIT PROGRAM
- Custom laser-etched Lever Kit or Metal Kit.
- Personalized artwork can be up to 50 x 25 mm.
- Minimum eight boxes per order (24 pcs per box).
- Mixed or single color options.
- Contact our sales staff for details.

Colors: Grey, Black, Purple, Red, Blue, Gold
(Blue color not available in U.S.A.)
**SABER LEVER**
- Constructed from forged, heat treated and CNC machined steel.
- Heavy-duty 150 mm high-leverage tire lever with aggressive hook design.
- 15 mm pedal wrench (combine two to remove 15 mm nuts).
- Bottle opener.
- Sold as a pair.

**ALLOY LEVER**
- Constructed from forged aerospace grade aluminum.
- Compact and aggressive dual hook design.
- Sold as a pair.

**MATRIX LEVERS**
- Strong, fiber reinforced Composite Matrix.
- Aggressive dual hook design.
- Available as individual pairs or in a countertop box (30 pairs).
  Colors: Black, White

**POWER LEVERS**
- Strong, fiber reinforced Composite Matrix levers.
- Aggressive dual hook design.
- Comfortable, wide handle with integrated spoke hook that locks levers together.
- Available as pairs or in a countertop box (30 pairs).
  Colors: Black, White

**POWER LEVERS XL**
- Strong, fiber reinforced Composite Matrix levers.
- Aggressive hook design.
- Extra-long 148 mm length for increased leverage.
- Comfortable, wide handle with integrated spoke hook that locks levers together.
- Available as pairs or in a countertop box (30 pairs).
  Colors: Black, Yellow

OUR BAGS AND ORGANIZERS HAVE BEEN A SUCCESSFUL COMPONENT to the Lezyne brand since the company began 12 years ago. We offer a large variety of styles and sizes, be it a small, aero saddle bag, a full collection of bikepacking essentials or everything in between—from a phone wallet to a frame pack. This year we focused on utilizing new and improved materials with better water resistance and more durability, added a splash of color and rounded out the line to make sure your every cycling bag need is met.

Pod Caddy M 135g
- 9.5 L Capacity.
- Molded EVA foam, semi-rigid construction with QR Mounting System.
- Durable woven nylon cover with extra wide clamshell opening.
- Internal mesh divider keeps contents organized.
- Reflective piping increases visibility.
- Water resistant.

Mid Caddy 115g
- 0.8 L Capacity.
- Medium sized saddle bag.
- Tools neatly behind saddle.
- Insert keeps contents organized.
- Internal mesh pocket.
- Built-in key hook.

Micro Caddy S/M QR
S: 120g  M: 130g
- Small: 0.2 L Capacity / Medium: 0.3 L Capacity
- Compact aero-shaped design with QR Mounting System.
- Durable woven nylon construction.
- Printed internal pockets to organize money, tools and tire repair items.
- External multi-tool sleeve.
- Reflective piping increases visibility.
- LED light mount loop.
- Water resistant.

Aero Caddy 106g
- 1.1 L Capacity.
- Semi-large sized saddle bag.
- Tucks neatly behind saddle.
- Insert keeps contents organized.
- Internal mesh pocket.
- Built-in key hook.

Mid Caddy QR 115g
- 0.8 L Capacity.
- Medium sized saddle bag.
- Roll top enclosure with securing strap.
- Printed internal pockets to organize money, tools and tire repair items.
- Ideal for mountain and gravel bikes.

Organizers

Our bags and organizers have been a successful component to the Lezyne brand since the company began 12 years ago. We offer a large variety of styles and sizes, be it a small, aero saddle bag, a full collection of bikepacking essentials or everything in between—from a phone wallet to a frame pack. This year we focused on utilizing new and improved materials with better water resistance and more durability, added a splash of color and rounded out the line to make sure your every cycling bag need is met.
**ORGANIZERS**

**MICRO CADDY S/M**
- S: 85g
- M: 90g
  - Small: 0.2 L Capacity / Medium: 0.3 L Capacity
  - Compact, wedge-shaped saddle bag
  - Elastic nylon strap secures caddy to the seat rail
  - Printed internal pockets to organize money, tools and tire repair items
  - Reflective logos and loop increases visibility
  - Water resistant
  - New high contrast red/black or black only

**S CADDY**
- 80g
  - 0.3 L Capacity
  - Small, wedge-shaped saddle bag
  - Velcro straps attach to saddle rails and seat post
  - Printed internal pockets to organize money, tools and tire repair items
  - Reflective logos and loop increases visibility
  - Water resistant
  - New high contrast red/black or black only

**EX CADDY**
- 115g
  - 0.8 L Capacity
  - Expandable wedge-shaped saddle bag
  - Bungee system attaches to saddle rails and seat post
  - Durable woven nylon construction
  - Printed internal pockets to organize money, tools and tire repair items
  - Reflective logos and loop increases visibility
  - Water resistant

**R CADDY**
- 115g
  - 0.4 L Capacity
  - Expandable saddle bag with Velcro roll closure
  - Single-removeable Velcro strap attaches to saddle rails
  - Printed internal pockets to organize money, tools and tire repair items
  - Reflective logos and loop increases visibility
  - Water resistant

**ROAD CADDY**
- 115g
  - 0.4 L Capacity
  - Medium capacity saddle bag
  - Bungee system attaches to saddle rails
  - Single Velcro strap secures to saddle rails
  - Durable woven nylon construction
  - Large main compartment with organizational pockets
  - LED light mount loop
  - Reflective logos and loop increases visibility
  - Water resistant

**ROAD CADDY XL**
- 142g
  - 1.5 L Capacity
  - Extra large, simply designed saddle bag
  - Long adjustable strap balances contents and easily attaches to seat rails
  - Single zipper, extra wide opening
  - LED light mount loop
  - Reflective logos and loop increases visibility
  - Water resistant

**M CADDY - CO2 KIT**

BIKEPACKING

FRAME CADDY 264g
- 2.5 L Capacity
- Large capacity frame pack
- Adjustable mounting straps
- Protected zipper enclosure
- Fits most frames
- Complements current touring/bikepacking setups

BAR CADDY 263g
- 7 L Capacity
- Medium capacity handlebar bag
- Easy access, double sided roll-type enclosures
- Highly water resistant, compressible design
- High quality, durable materials
- Adjustable straps and simple Velcro mounting system
- Extra draw cords to hold additional gear
- Reflective features and light mounts for added safety

XL CADDY 434g
- 7.5 L Capacity
- Extra large adventure style seat bag
- Two individual Velcro straps securely mounts to seat rails
- Single strap mounts to seat post to keep bag stable
- Roll-style enclosure provides easy access and compresses gear
- Highly water resistant
- Removable internal sidewall supports
- Reflective features and light mounts for additional safety

STUFF CADDY 76g
- 1.3 L Capacity
- Simple, versatile caddy with multiple mount options to carry extra “stuff”
- Quickly and securely mounts to handlebars, frame, fork or most anywhere
ORGANIZERS

**PHONE WALLET** 95g
- 0.3 L Capacity
- Improved size holds modern phone designs.
- Keeps phone protected.
- Fits neatly in jersey pockets or riding packs.
- Built in credit card pocket.

**SMART ENERGY CADDY** 81g
- 0.4 L Capacity
- Lightweight, semi-rigid top tube mounted phone holder
- Molded EVA foam structure with woven nylon cover
- Compact design with extra wide diameter opening.
- Mesh divider keeps additional items in place.
- Clear, touch screen compatible cover.
- Three Velcro snap design attaches securely to the top tube.

**CADDY SACK** S: 30g  M: 50g
- Simple, reusable sack holds a variety of ride essentials.
- Durable materials, welded seams and roll top closure provide weather protection.
- Large opening offers quick, easy access.
- Available in Small and Medium sizes.

**CHAINSTAY PROTECTOR**
- S: 95 x 250 mm
- M: 130 x 250 mm
- L: 180 x 250 mm
- Durable protector designed to reduce chain noise.
- Puncture resistant exterior neoprene protects frame finish.
- Rubberized interior prevents slippage.
- Available in three sizes.
- Machine washable.

**CADDY KIT** 193g
- Caddy Sack
- Twin Speed Drive CO2 head.
- Two 16g CO2 cartridges.
- Smart Kit glueless patch kit.
- Power Levers.

**FLOW CADDY** 193g
- Lightweight, rigid container that fits in standard bottle cages.
- Universal storage for essential roadside repair goods.
- Water resistant threaded lid.
- Available with or without organizer sleeve.

**PHONE WALLET** 95g
- 0.3 L Capacity
- Improved size holds modern phone designs.
- Keeps phone protected.
- Fits neatly in jersey pockets or riding packs.
- Built in credit card pocket.
